About This Report

Editorial Disclaimer

Bang for Your Duck is an independent, nonpartisan editorial project. Scores and grades represent opinions based on publicly available government data. This report is not legal, financial, or political advice. We are not affiliated with any political party, government body, or lobby group.

How We Grade

This report grades your riding — not your MP personally — on measurable dollar flows: federal investment received (50%), federal transfers allocated (35%), and the cost of representation (15%). Context categories like MP Work, Electoral Health, and Demographics are shown but do not factor into the composite grade.

What We Don't Measure

No model captures the full picture of parliamentary representation. Constituency casework, committee influence, speech quality, legislative amendments, caucus advocacy, and riding-level service delivery are important but not quantifiable from publicly available data at scale. Our scores are a starting point for conversation, not the final word.

Structural Factors

Scores are affected by factors outside any MP's direct control: geography (travel costs are higher for remote ridings), government vs. opposition status (governing MPs have more influence over spending), provincial transfer formulas (all ridings in a province share the same transfer score), population density, and urban vs. rural characteristics. A low score reflects federal spending patterns, not an MP's dedication.

For MPs and Staff

We grade ridings, not individuals. If any data in this report is inaccurate, we want to know. Email corrections@bangforyourduck.ca with the riding name, the data point in question, the correct figure, and supporting documentation. We review all correction requests and will update scores if warranted.
